

WHO'S GOT THE Highest EQ?

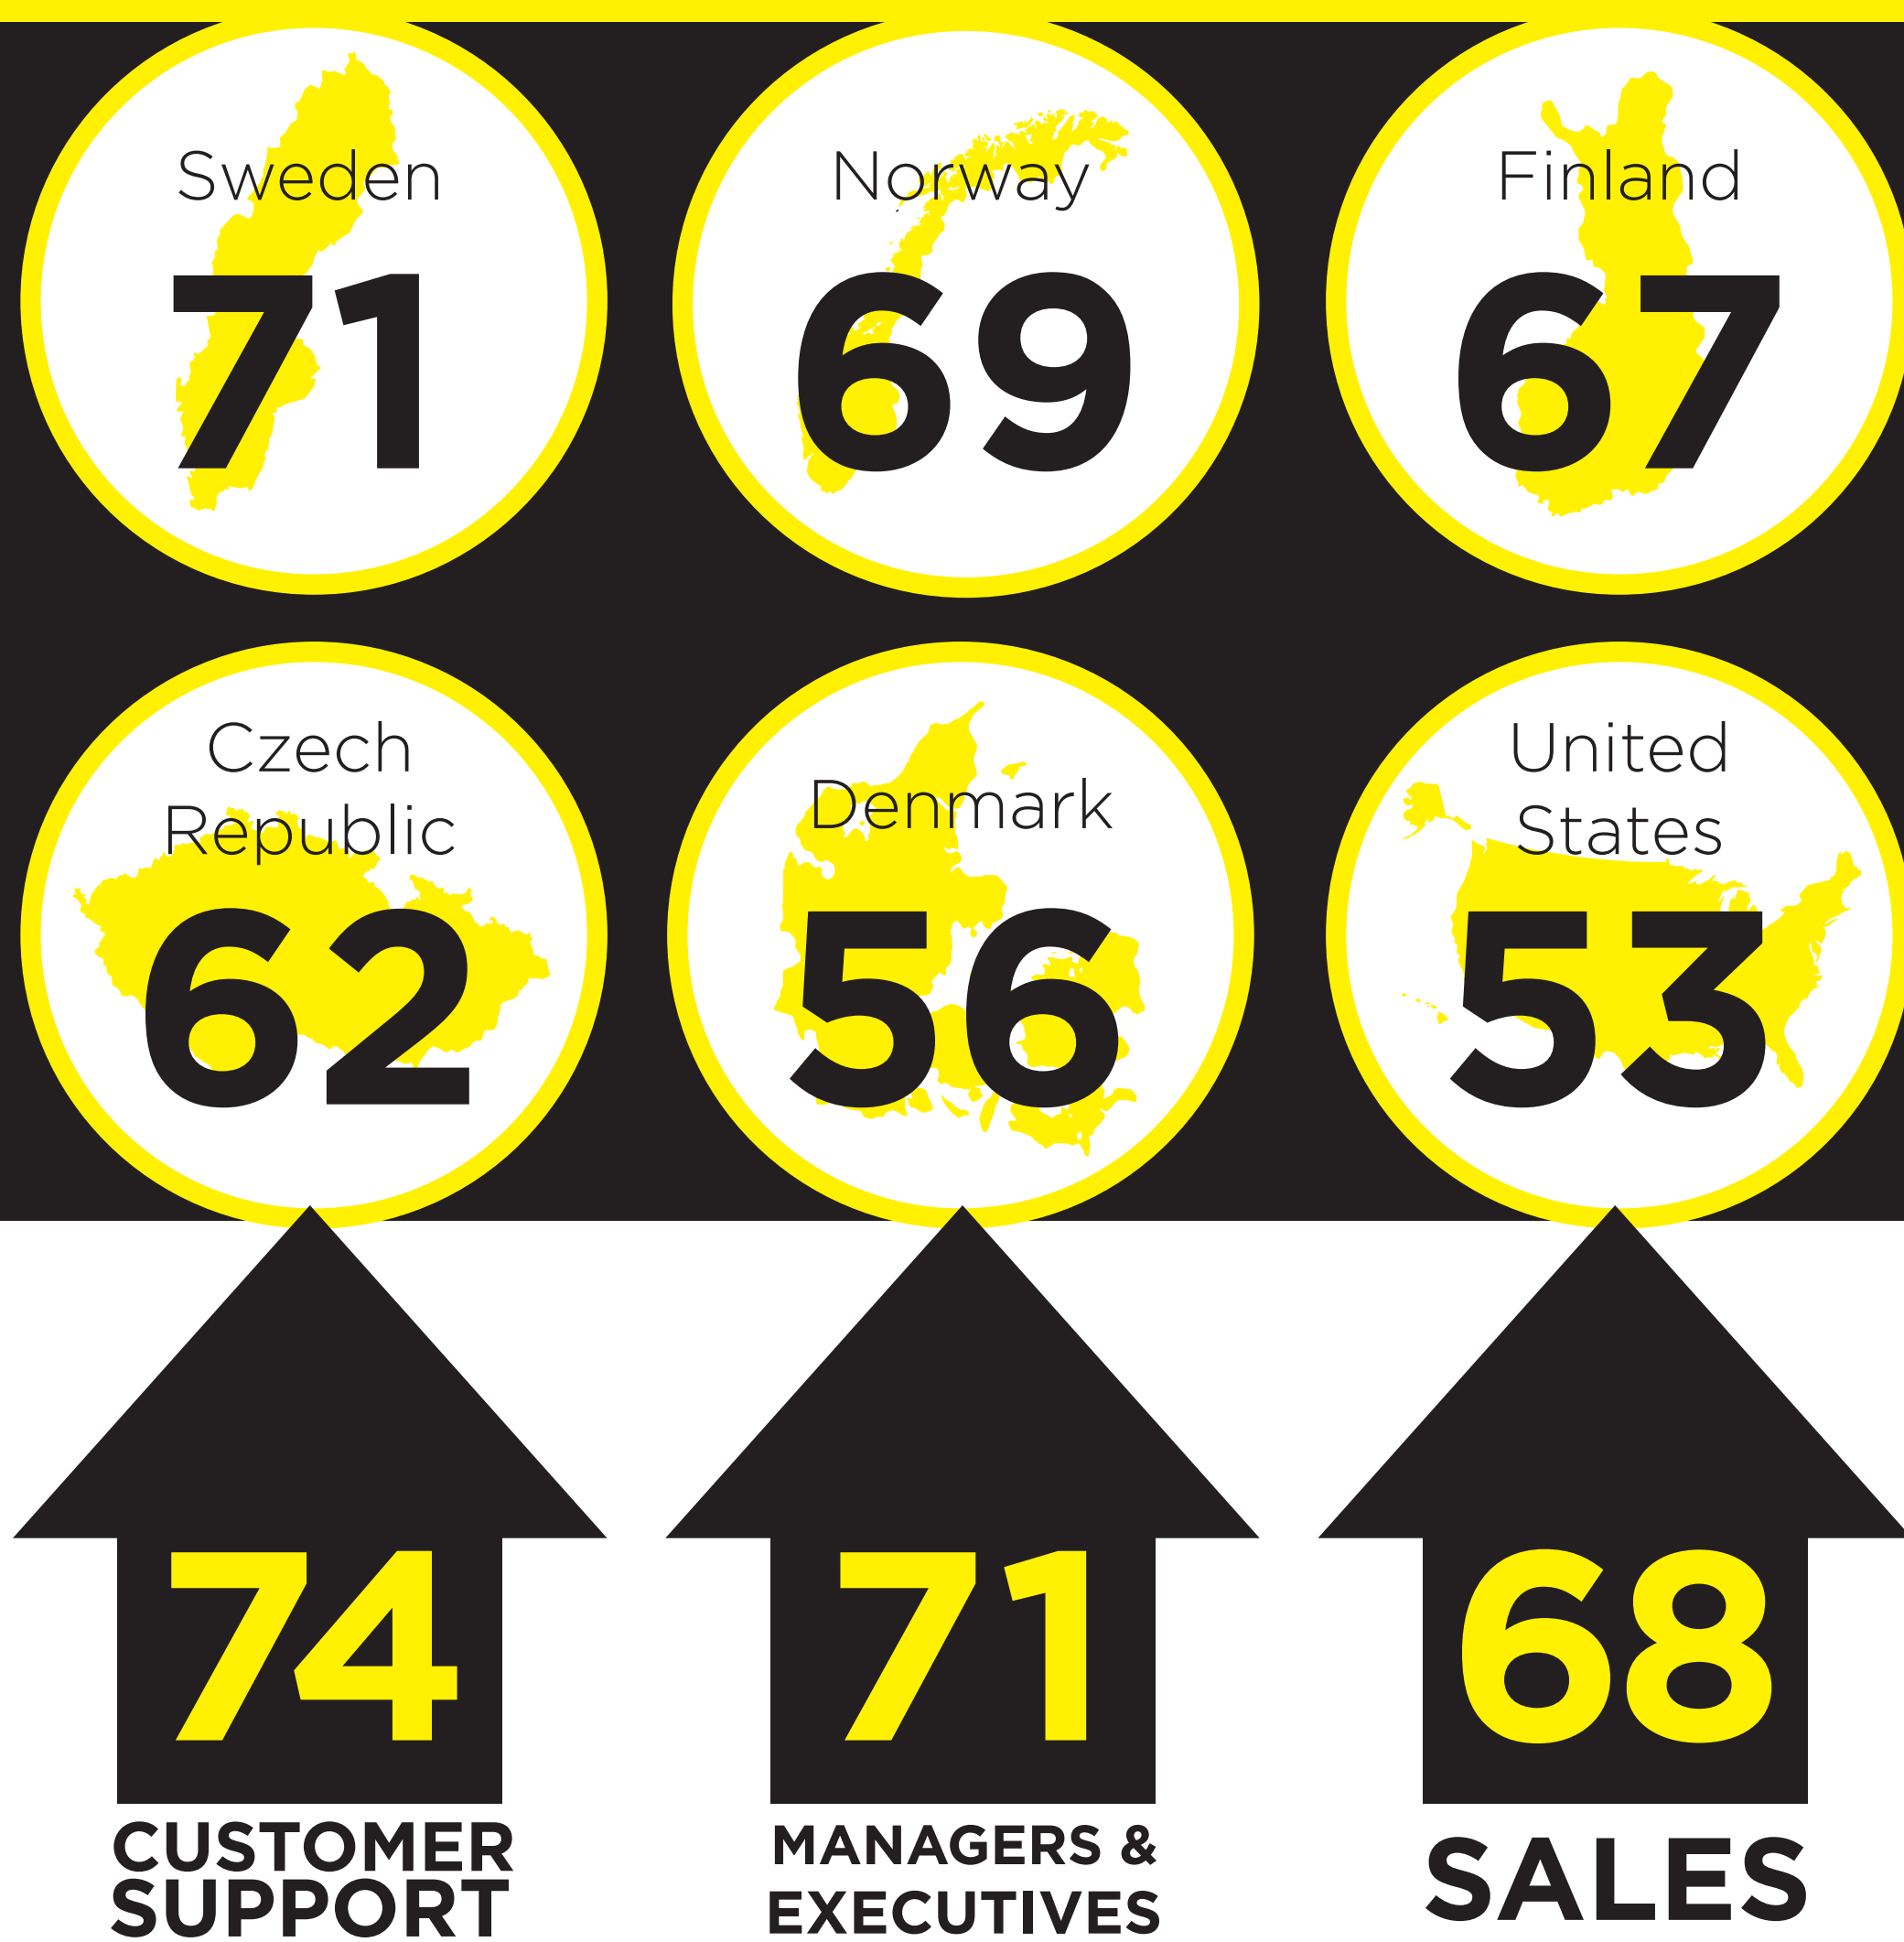

EQ, the ability to identify and manage your own and others' emotions, determines success in nearly every job and organizational level. Individuals who lack the ability to build effective relationships are destined to fail - no matter how smart or talented they are.

So, who has the highest EQ? To find out, our research team analyzed data from thousands of assessments. Here's what we came up with:

There is no significant difference between men and women.

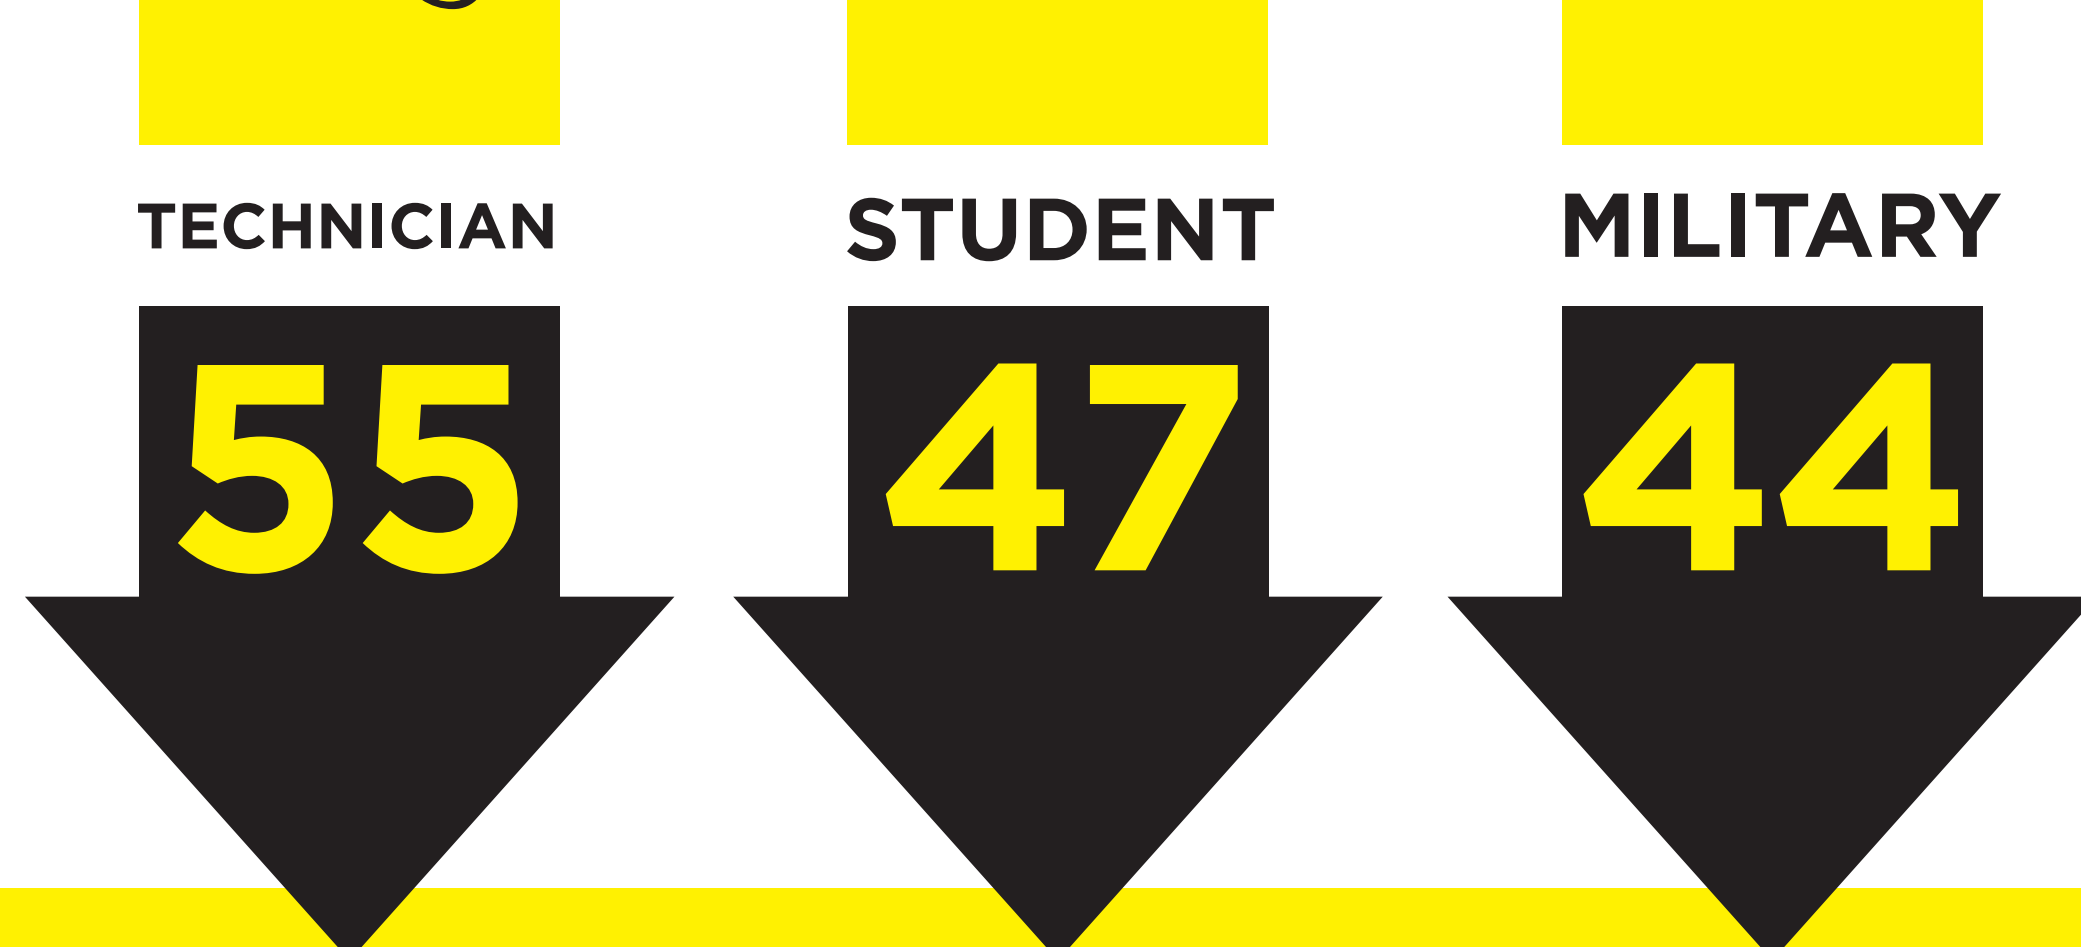

People from some countries have significantly higher EQ.

Which jobs have the highest EQ?

Although EQ was relatively even across organizational level, as expected, jobs that depend most heavily on client or employee interaction showed the highest average EQ scores.
